GAVE US THE SLIP.

The Chilian Vessels Sail for Home, Carrying With Them a United States Marshal.

SAN DIEGO, Cal., May 7.—The steamship Etata, which was siezed yesterday by the United States marshal, got away last evening, taking a United States deputy marshal, who was on board, with her. She left the harbor a little after 5 o'clock. Her departure was not wholly unexected, but it was not thought she would leave as soon as she did. About 5 o'clock the captain's gig containing himself and five of the crew, pulled out from the foot of H street, and as soon as the captain got on board the anchor was weighed and the vessel steamed out of the harbor. The United States marshal was not aware, evidently, that his authority was to be disregarded by the captain of Etata for at the time of her sailing he was in quest of the schooner Robert and Minnie, which craft he had been ordered to take at any point outside of the jurisdiction of Mexico. The vessel was to be seized as a piratical craft. The marshal and party left at 4 o'clock for Point Loma on a small steam launch. The party was heavily armed and with them were four soldiers from the barracks armed with rifles. The marshal had been authorized by the Washington authorities to take the schooner even on the high seas under the provisions of neutrality and piracy law. Yesterday the marshal and party started for Coronado Islands where the Robert and Minnie was last seen, with the intention of taking her into custody. She was sighted just outside, but when the craft containing the marshal made in her direction, the schooner shaped her course southward, as if desirous of reaching Mexican waters before being overhauled. The boat containing the marshal's party passed the schooner about two and one-half miles south of the international line, fifteen miles southwest of Point Lomas. The tug got close enough to make out the name "Robert and Minnie, San Francisco." which was painted on her stern. The schooner had nearly all sail set, but was so heavily laden that she made but little headway. The movements of the tug containing the marshal's party were narrowly watched by the crew of the schooner. The latter succeeded in reaching Mexican waters before the tug overhauled her and the Marshal returned for further orders. There is no doubt that the rifles and ammunition on board of Robert and Minnie was intended for the Chilian insurgents and that the sailing of Etata at this port was for the object of procuring these arms. It is definitely known that communications passed between the steamship's captain and the captain of the schooner. The United States marshal arrived at this port about midnight last night with the news that the schooner had eluded him. There is no doubt now but that the Chilians were determined to leave the harbor at any cost. One of deputy marshals, who was stationed at the mouth of the harbor in a small boat to keep a lookout, says that when the Etata passed out the pilot was standing between two armed Chilians, while four cannon guarded the bow boat and stern. He also says that at least eighty armed Chilians were drawn up on the deck ready for action. This fact shows that while the vessel was in port she had a plentiful supply of men, arms and ammunition. During her stay in port the only arms displayed was one small cannon, while no more than sixty sailors were at any time seen on her deck. The vessel on leaving the harbor shaped her course north and steamed in the direction of San Clemente.

SAN FRANCISCO, May 7.—Advices received here from San Diego yesterday indicate strongly that English capital is at the back of the Chilian insurgents. Drafts given in payment for the supplies purchased for the Etata were drawn on the bank of London, limited, and the bank of Tarapoco, both of which are controlled by Colonel North, the millionaire Englishman, known as the Nitrate king.

LONDON, May 7.—It having been stated by the American press that drafts given in payment of supplies purchased for the Chilian steamer Etata seized by the United States officers at San Diego, Cal., were drawn on the bank of London, limited, and the bank of Tarapoben, both of which concerns are controlled by Colonel North, an English millionaire, some times called the "Nitrate King." The London representative of the United Press to-day interviewed that gentleman. After Colonel North's attention had been directed to the statement referred to, he said it was absolutely untrue that he had not financially, or otherwise, taken sides between President Balmaceda's government and the Chilian insurrectionists. This was true of the past and would continue to be true of the future. He and his associates would continue to observed the strictest neutrality in the affairs of Chili. Colonel North did not, however, hesitate to express his conviction that sooner or later the government of President Balmaceda would crush the revolt and re-establish its undisputed authority. He also said that he heartily approved the refusal of the Chilian government to accede to mediation with regard to the nitrate trade. Colonel North said it was benefitted rather than injured by the war, and he expected that nitrate would soon advance to ten pounds a ton. Replying to a direct question Colonel North declared that if the bank of Tarahobea had, as alleged, issued drafts for the Etata purchases, it had done so merely in the ordinary and regular course of business.

THE OTHER SIDE.

The United States has a Grievance Against the Italian Government.

PHILADELPHIA, Pa., May 7.—The Times says the report of the New Orleans grand jury does not indicate that any effective steps are likely to be taken toward the "judgment" of those concerned in the recent lynching, and it is much to be feared that Mr. Rudini will not get the satisfaction he had demanded. Meanwhile, however, the grievance has been shifted to the other side, and if last night's dispatches are true, Mr. Blaine will demand satisfaction from Mr. Rudini. An American driving with his daughter near Florence, it is reported, was attacked by a mob, and his daughter seriously injured. Here is a clear case for complaint, since it is evident that the attack was made on the tourists because they were Americans, and not because they were disorderly persons or criminals. No doubt Brother Blaine will be equal to the emergency, but it will be not a little curious to see how the two parties to the international controversy will conduct themselves under the circumstances. While the incident gives the secretary of state an opportunity for a smart letter it still gives more opportunity to the Italian minister for prompt action against the rioters that would be smarter still and might greatly strengthen the attitude of his government.

CHARLESTON, S. C., May 7.—In a review of the report of the New Orleans grand jury, the News and Courier says: "The report of the grand jury is very long, but vague, indefinite and inconclusive. Admitting the truth of the charge that there was a chronic demoralization of the administration of justice in the parish of Orleans, there was no justification of the massacre."

BLAINE IN IT.

The Secretary of State Has an Eye to Self Interests.

NEW YORK, May 7.—The World this morning prints a long dispatch from Washington relative to Secretary Blaine and Russell Harrison's alleged connection with the North American Commercial company, which enjoys a monopoly of seal fisheries in Behring Sea. The correspondent declares that President Harrison is about to interfere. The dispatch continues: "Whether Mr. Elkins has succeeded in convincing the secretary that the North American ought to be liberally dealt with cannot be stated positively, but some one has induced the secretary, in spite of a demand for a reduction in the limit of the season's catch, to place the number of seal that may be taken on the Priblove islands at a figure probably far in excess of the number that can be captured from the now decimated herds of fur-bearing amphibia. Evidently the operation of the North American Commercial company constitutes, in Mr. Blaine's own language, 'a private affair,' and from the white house point of view it may even be called a 'private family affair.' The president, however, seems to have made up his mind to throw 'Prince' Russel over, and upset the plans of his scheming secretary of state."

Waiting for Blaine's Return.

WASHINGTON, May 7.—Until Secretary Blaine returns to the city there will be no steps taken in regard to the recent developments in Chilian affairs, but there is no secret made of the fact that the open participation of the firms of Grace & Co., and Flint & Co., in the furnishing of arms to the belligerents of that distracted country has been brought to the attention of the government in a way that cannot be neglected or over looked. Mr. Flint is understood to be supporting President Balmaceda, and Mr. Grace the congressional revolutionists.

An Independent Church.

CANTON, Ohio, May 7.—The Rev. Howard MacQeary arrived at his home in this city yesterday from St. Louis. It is undrstood that he has received a proposition to establish an independent Episcopal church at Cleveland and has the matter under advisement. He says he has recieved an invitation to preach in the Unitarian church at Pittsburg and will probably go there May 17.

Short in His Accounts.

LITTLE ROCK, Ark., May 7.—Benjamin Solomon, clerk in the office of Joseph Herold, ticket broker, is short in his accounts. Yesterday Herold wired the young man's father, L. Solomon, a well known broker of Chicago, that his son was short $500. The father replied, "If my son is guilty punish him without mercy."

Innocence Abroad.

HARTFORD, Conn., May 7.—S. L. Clemens (Mark Twain) and family, will sail for Europe on June 6th, and will probably reside abroad for several years.

FROLICSOME FLAMES

Play Capers to the Tune of $750,000 by Wiping Out Long Island Lumber Yards.

NEW YORK, May 7.—The fire which broke out in the Doncaster Iron foundry, at Long Island City, at 10:40 o'clock last night, is supposed to have been caused by a spark from a casting which had been made just before the shop closed. It must have smouldered for some hours, but when it appeared it blazed so fiercely that the whole place was totally destroyed in a few moments. The firemen saw the great danger at once and called out the whole Long Island City department, but the fire was beyond control then and soon had the next building, the Clark & Sampson feed mills, a mass of ruins. The strong westerly wind jumped the flames across to H. S. Whiting's lumber yards, where the high piles of pine boards gave a fresh zest to them. From there they touched H. F. Burroughs & Co., wholesale lumber yards, on Newton Creek, and then attacked the great yards of the Export Lumber company, which are owned by W. R. Grace & Co. The Tunis Sims yards followed and then came the yards of E. W. McClave & Co., and of Harrison & MacKintosh and the Hammell Stove works. There were now about eight acres of dry lumber ablaze and the flames lit up the scene for miles around. The total loss is estimated at $750,000. An unknown man was drowned in Newtown creek while looking at the fire and Fireman McDermott was badly burned about the head. All the lumber was thought to be fully insured. At 2:15 a. m. the fire was under control and the Long Island station was out of all danger.

JOAN OF ARC.

Celebrating the Raising of the Orleans Siege—Other Foreign News.

LONDON, May 7.—Orleans is celebrating with unusual eclat to-day the 462d anniversary of the raising of the siege of Orleans by Joan of Arc. The 'anniversary is made the occasion of a great appeal to the patriotic spirit of the French by reviving the memories of their heroic age. The program to-day is elaborate and magnificent, and President Carnot holds a prominent part. A large force of troops has been gathered to give military splendor to the celebration.

During the day President Carnot presides at the opening of several public buildings. In the evening there will be a historical procession, in which all the troops of the garrison will take part, and the town will be illuminated, and later on there will be the usual ceremonies at the Cathedral. The festival will continue to-morrow. Prominent people have gathered from all parts of France to witness the spectacle, and everybody is wearing some souvenir of Joan of Arc.

An English army officer, who witnessed the recent inspection of troops at Vincinnes, says that, if the German emperor is right in his opinion that artillery is the backbone of any army, France has plenty of it, men, horses and material. The one point open to improvement is the horsing of batteries which seemed too weak, both as to the number of teams and its quality. But the inspection was a great success, and showed the French army to have been brought to a high degree of efficiency.

A Vienna dispatch says that news from all parts of Russia and Polland, shows that the authorities vigorously suppressed any attempt to celebrate the centenary of the Polish constitution. In Warsaw the police entered the houses of some Poles who illuminated in the evening and beat and arrested many of the inmates. A Pole who sang patriotic songs in the street was arrested and immediately sent to the interior of Russia, where he will be put in prison or exiled to Siberia. The increased severity of Russian restrictions upon foreigners is said to be chiefly aimed at the Germans, who have not only obtained considerable wealth and influence as merchants in European Russia, but are also largely settled as traders on the Pacific coast of Russia's Asiatic territories. Many of them have taken Russian naturalization papers in order to secure trading privileges.

A dispatch from Essen, Germany, says that the men on a strike from the Wattenscheid coal mines have offered to yield the question of hours, provided the owners will increase their wages. The owners have the subject under consideration. The arrest of the leaders of the strikes at the Centreum, Werdmann and Heikoff mines is claimed by the police to have had a salutary effect in repressing disorder. A Jew named Rossenblatt, accused of loaning small sums of money to workingmen at an extorbant rate, was attacked by an angry crowd at Bochum, on Sunday last, and had much difficulty in escaping.

Berlin advices state that the cabinet and kaiser view with great anxiety, which they have attempted partly to conceal, the efforts of the Rudini cabinet to bring about a reapproachment between France and Italy on the one hand, and with Russia on the other. There is a feeling that Italy can no longer be depended upon in the tripple alliance, and this has been shown in the coolness and distance with which the Italian ambassador has of late been treated by the kaiser.

SIGNAL SERVICE BULLETIN.

Severe Frosts, the Worst in History, Reported.

WASHINGTON, May 7. The signal office furnishes the following special bulletin to the press: The cold weather prevailing over the country for the past three or four days has been of unusual severity in extent and duration and has been accompanied in some sections by lower temperatures for the season and later frosts than ever previously recorded by the signal service. For the past two days the temperature over the greater portion of the country east of the Mississippi and Missouri rivers, and in the southwest has from 10 to 20 degrees below the normal. Severe frosts have occurred throughout the lake regions, the Ohio, upper Mississippi and Missouri valleys, and are reported this morning as far south as North Carolina and Southern Tennessee, which is later than there is any previous record of in those states. Minimum temperatures of 34 and 38 degrees respectively were reported this morning from Lynchburg and Raleigh, which is the lowest on record for those stations for the first decade of May by one and two degrees. No severe frosts have been reported by observers of the service from New England or the Middle Atlantic states, due probably to the cloudiness which has prevailed over these districts. The temperature will probably rise slowly from this morning over the whole country and severe frosts are not likely to again occur.

At 4 o'clock this afternoon at the bride's home east of the city, occurred the marriage of Alfred Barbier, a popular painter in the east car shops, to Miss Alice Cutler, a charming young lady. This afternoon occurred the marriage of William Korte, a moulder at the Bass works, to Miss Minnie Brokmeyer. The young people are popular and have the congratulations of a large number of friends.

INDIANA CONGREGATIONALISTS.

Opening of the Annual Meeting of the State Association.

The women's board of missions of congregationalists for Indiana held its annual meeting in the Congregational church at Indianapolis yesterday. Mrs. F. E. Knopp, wife of the pastor of the church, welcomed the board to the city in an earnest and eloquent address which was responded to by the Rev. H. P. Beach, a missionary from China, and by Miss Virginia C. Murdock, M. D., a visiting missionary from Japan. The opening of the Congregational ministers' association occurred at Indianapolis last evening. The opening address was delivered by the Rev. J. H. Crum, of Terre Haute.

CRAYON PORTRAITS.

Inspector Stuart Pronounces the Chicago Firms Frauds.

CHICAGO, May 7.—Inspector Stuart, of the postoffice department, has declared war on the seventy-two crayon portrait companies in this city. He claims that they are using the mails to deceive and defraud, and the postoffice people will refuse to pay their postal orders. It is alleged that country people are swindled out of from $8 to $10, in most cases the portraits furnished being wretched affairs, in cheap and gaudy gilt frames. Sometimes no portrait whatever is sent. The companies protest that their business is legitimate and propose to fight the action of the authorties.

Sullivan Still With Them.

NEWARK, N. J., May 7.—At a special meeting of the Order of Elks last night John L. Sullivan, who was charged with conduct unbecoming a member of the organization, was placed on trial. A commission appointed to investigate the charges met in Cincinnati to hear the testimony of T. M. Haddon, of Cincinnati lodge, who preferred the charges. Haddon, on cross-examination, admitted that his charges were based upon the assertions of others. The idea is prevalent among the members of the Newark organization that the charges against Sullivan will be dismissed.

OFFICIALLY USHERED IN.

Colonel Zollinger Now Mayor of the City—Official Count of the Canvassing Board.

The board of canvassers, whose duty it is to canvass the votes cast at the recent city election, met to-day at the city hall to perform that duty. The board is composed of the inspectors from the different precincts and the city clerk. They completed their work at 1:30 o'clock p. m. The majorities of the different city officers and councilmen elected were the same as published in THE SENTINEL last evening with the exception of mayor and clerk, Colonel Zollinger's majority was made six less which gives him ninety-one majority over Harding. The vote of Rudy Reinewald for clerk was reduced thirty-one. This gives him a majority over Mr. Studer of 739 votes.

The various candidates for city offices on the democratic ticket and the ten candidates for city council receiving the highest number of votes cast in their various wards, were declared elected, and certificates of election were issued to them.

City Treasurer Soeenheimer, Clerk Reinewald, and Marshal Franke succeed themselves. They filed their official bonds and took the oath of office.

Colonel Zollinger qualified this afternoon by filing his bond and taking the oath of office, and is the mayor of the city of Fort Wayne.

DRUGGISTS IN CONVENTION.

A Fort Wayne Druggist Expresses Himself on Patent Medicines.

The tenth annual session of the Indiana Pharmaceutical association, in the state agricultural room, at Indianapolis, began yesterday morning at 10:30 o'clock.

President Hurty delivered an address, in which he informed those present that Indiana, with a population of 2,182,000, had within its borders 2,300 drug stores, one store to each 948 people. He said this was too many, as that number of people cannot properly support a drug store.

Leo Etiel, of South Bend, recommended that proprietary medicines be sold on certain conditions. This gave rise to a good deal of discussion. August Detzer, of this city, was heard on the subject. He said the way to be free of the patent medicine men was for pharmacists to make proprietary medicines of their own. He had a cough syrup which cost him four cents a bottle, of which he sold fifty bottles to one of any other preparation. "I am not going to encourage the sale of any patent medicine," he remarked. "The only thing that sells them is the mystery of their preparation and a little printer's ink. These patent medicine men are protecting themselves. There is a popular preparation made by a locksmith who doesn't know anything about medicine, but he heard that saltpeter was good for the kidneys, and he went to work preparing his remedy."

FOOLISH PETER.

Runs a Race With a Train and Gets Chopped Into Mince Meat.

NEWPORT, Ark., May 7.—Peter Smith, of Fisher, a station on the Cotton Belt railway, twenty miles south of here, has been in the habit of riding a fast horse ahead of a passenger train on the track for about half a mile to a crossing, where he would turn and laugh at the trainmen as the train passed by. His success in defeating the train to the crossing on his horse, encouraged him to try it with a mule. Yesterday he mounted his mule, and as the train started Peter set out ahead at full gallop. It soon became evident that the mule was not fleet enough to reach the crossing in time. The train continued to gain on him very fast and when within a half dozen rods of the crossing the mule stumbled and fell, it rolled over the rails, but Smith was run over by the train. His head was cut off, both legs cut from his body and scattered along the road for some distance.

THE BARNABY MYSTERY.

Pinkerton Detectives Have the Case in Hand.

BOSTON, May 7.—Superintendent Cornish, of the Pinkerton's Boston office, said yesterday, when asked about the Barnaby affair: "We have progressed to a moderately satisfactory degree. I will only say that our operations are not following out the popular line of suspicion. I am told the official analysis of the contents of the bottle received in Denver may prove that it was originally filled with good whisky, and that the poison was mixed with it, and not with a chemical fluid, imitation of whisky, as has been stated. We have some interesting material to work on, but, understand me emphatically, there has been nothing as yet developed that throws well-founded suspicion on any one. It would not be surprising if some information was gained shortly to strengthen the theory that the package sent to Denver may have been tampered with in transit. I am not at liberty to speak further for publication."

Coming East.

CHEHALIS, Wash., May 7.—The presidential train passed through here at 10:15 o'clock last night. The president was greeted by an immense crowd who had a brass band and bon fires to assist them in their welcome. The president made a short speech.

The funeral services of Elfriede, the little daughter of Mr. and Mrs. Louis Niemoyer, will be held at the house, 167 Madison street, to-morrow afternoon.

The funeral of Mrs. Maria Witte was held from the residence, 139 Johns street, this afternoon at 1:30 o'clock. Services will be held also at 2 o'clock in Zion's Lutheran church.

Last evening Mr. J. M. Neufer, of the drug firm of J. Hetrick & Co., received a message from Wawaka, Ind., announcing the death of his father, S. M. Neufer, of Akron, Ohio. The deceased was visiting his daughter at Wawaka, when he was seized with la grippe, which terminated in death late yesterday afternoon. The deceased was sixty-five years old and leaves two sons, John, of this city, and Bert, of Kendallville, and a married daughter at Wawaka.

Yesterday afternoon, at Huntington, Ind., occurred the death of Mrs. Amos Mohler, the mother of O. E. and A. D. Mohler, of the Gazette editorial staff. In giving an account of her death, which was quite sudden, the Huntington Herald of last evening says: "Tuesday she visited a neighbor's house and to-day was up and around in the house. She was even able to partake heartily of a noonday meal but shortly afterwards was taken with hemorrhage of the lungs. When the attack came on, one of the daughters hastened across the street and notified the Wintrode family. Frank Wintrode hurried to the telegraph office to notify A. D. and O. E. Mohler, at Fort Wayne, and when he returned, Mrs. Mohler was dead. The deceased was a woman of precious memory, was devoted to her home with a loving tenderness which the members will miss beyond power to express. Mrs. Mohler was a member of the M. E. church and was over sixty years old." Both of the Messrs. Mohler of this city are at Huntington.

RUNNING FOR OFFICE.

Novel and Exciting Way to Settle a Contested Election.

CRAWFORDSVILLE, Ind., May 7.—On Monday last occurred the city election at Waynetown, Montgomery county. Wm. Simms and Frank Homewell tied for the office of treasurer, each gentleman receiving 328 votes. To decide the question as to which one should hold the office, a foot race was held yesterday afternoon between the men. The race was a 200-yard dash, and several thousand people were on the ground, betting on the outcome. Simms seemed a sure winner until he tripped and fell when within three yards of the goal. Homewell fell over him, but crawling over the line, won the race, amid the howls and cheers of the crowd. Homewell was duly sworn in last evening.

In conversation with a SENTINEL reporter this morning, Louis Heilbroner said: "Some people seem to have an idea that this Siddons-White contest on Saturday night is to be a regular prize-fight, slugging-match and everything else that is bad. That is a mistake. It will be a sparring contest for scientific points only, and it will be attended by the cream of the sporting fraternity in the west."

PERPETUAL INJUNCTION

Asked for By the Maumee Gravel Road Company Against the Land and Improvement Company.

The controversy over the Maysville road owners and the Land and Improvement company has at last reached the courts. Yesterday the Improvement company gave notice that it would grade that part of the Maysville road known as Lake avenue, which comes through Lakeside. Having given notice, the company proceeded to tear down the old toll gate. This brought the difficulty to an issue. Attorney J. M. Barrett, of Morris, Bell, Barrett & Morris, representing the Maumee Gravel Road company, filed injunction papers to perpetually enjoin the Improvement company from going any farther and the sum of $2,000 damages is asked. The matter will be decided in the circuit court.

THE COURT CALENDAR.

There was but one drunk before Mayor Harding in police court this morning. He was sent to jail.

Constable Schlaudroff, armed with an affidavit from 'Squire Wilkinson's court, yesterday morning scoured Huntertown and the surrounding country in search of Harry Barvey, a young farmer who brutally assaulted a neighbor in Perry township. The young man fled to the woods on the Hillegas farm and successfully eluded the officer.

Yesterday a young convict named Enoch Joslyn, in Michigan City, serving a year at the penitentiary for petit larceny, was returned to this city on a write-up of mandamus by an officer to await a new trial. Joslyn was received at the prison last September and was almost on the eve of discharge by completion of his sentence, when the new trial was awarded him. The motion hung fire for so long that Joslyn recently wrote to Judge Hench, his attorney, to withdraw the motion for a rehearing, but it was too late, for the writ had been granted. The young fellow felt so bad over his prospects that he broke down and cried when he left the penitentiary. While serving the state he has acted as hostler for the warden and has been a very exemplary convict. It is understood that he may not be prosecuted again on account of his good record.

MOVING TO-DAY.

Ex-Mayor Daniel Harding Vacates the Municipal Chair.

To-day Daniel Harding will finish his official career as mayor of Fort Wayne. Soon after the noon hour he commenced to move. His desk, safe and other furnishings, were removed to rooms formerly occupied by him over the old postoffice building on Court street. The genial ex-mayor will there continue to do insurance business and he does a large chunk of it too. He is a pleasant man to do business with.

Mayor Zollinger will qualify and take hold of the reins of the municipal horse this evening.

IT WAS CLOSE.

J. V. Hiler, the Contractor, Falls From the Top of a Building.

Yesterday, while inspecting the work of carpenters on a new house on the south side, J. V. Hiler, the contracting builder, fell from the rafters near the roof. The fall was broken by coming in contact with timbers but the contractor fell heavily and was badly stunned. He received no injuries that will confine him to the house. It was a marvelous escape and Mr. Hiler can rejoice in not having been a subject for the coroner.

LAKESIDE will have a park.

DRIVE the gamblers out of the city.

THE pay days of the month will be here next Monday.

BASE BALL and bicycling are the rage in Fort Wayne this year.

THE only way we can rid our city of gamblers is to arrest them as vagrants.

THERE isn't a better time in the year than now to talk up street improvements.

OUR paved streets are praised by persons visiting the city. We ought to have more of them.

SOUTH WAYNE wasn't in the city election of last Tuesday. She was an interested spectator, however.

THE streets of the city are getting quite dusty. Many people are anxious for more street sprinkling.

IT will be Mayor Zollinger to-morrow, The title sounds very, very familiar in front of the Colonel's name.

THE carpenters' hammer is heard in many parts of the city. Building is going on at a pretty rapid rate.

THE frost has done considerable damage to fruit in different parts of the state, and some in this county.

ACTIVE preparations are being made for the observance of Memorial day in this city by the Grand Army posts.

THERE are 355 children at the home for feeble minded youth in this city. Two hundred of the number are boys.

WEST WAYNE STREET is a popular thoroughfare for bicyclists. They favor the asphalt pavement in their pleasure tours.

NEWSPAPER reporters will get down to a more vigorous hunt for news now that the excitement of the city election is over.

THE city election proved that Mayor Harding had a large number of friends within the ranks of the democratic party.

REV. DR. WELLS is conducting evangelistic meetings at Goshen. Dr. Wells did a great deal of good in this city last winter.

FORT WAYNE has got to be quite a sporting city. We have Sunday base ball and prize fights. It may be metropolitan, you know.

THE President last night reached the extreme limit of his trip, the northwestern extremity of the United States, and has now turned his face homeward.

FORT WAYNE is through with elections for this year. Our neighbors over in Ohio will have a red-hot gubernatorial contest on their hands in a few months.

THERE is an urgent demand for more passenger trains on the Nickel Plate railroad. The company ought to give the public better service in this respect

THE city council will be pretty democratic next year. The republicans are "not in it"—that is to a very great extent. They will have only one of the twenty members.

THE new city council will convene next Tuesday night. There will be several new members—Daddy Fox, Daddy Eggeman, Daddy Kelker, Daddy Buck, Daly Kieutz and Daddy Scherer.

CITY TREASURER O. J. ROSENSHEIMER received the largest majority at last Tuesday's election of any candidate upon the democratic ticket—1,815, Marshal Henry Franke followed with a majority of 1,713 votes.

PRESIDENT HARRISON will soon be returning to Washington. Wonder if we couldn't work another "April Fool Joke" about his passing through Fort Wayne? Guess we better not try it, however, for one of our reporters came pretty nearly getting killed a month ago for perpetrating that fake.

THE grip is now disappearing from New York, but between March 25 and May 1 there were nearly six hundred deaths from this disease and its complications.

MAYOR WASHBURNE is making such a determined war on the Chicago gamblers that the board of trade begins to feel quite panicky. The gambling fraternity have been thriving in this city for some time. They live in clover, raking in "innocents" by the score. They ought to be "weeded out," root and branch.

NEWSPAPER men who seldom have anything new, and whose papers are a reproduction almost of the editions of the evening press, ought not to commence the plagiarism racket. If they do, they will "get left in the soup." Fort Wayne editors fought that kind of a warfare long ago. People do not care where you get the news, only so you get it; that's all they demand.

BY THE death of John Cook, superintendent of the zoological gardens of Dublin, Ireland, Miss May Cook, of Pittsburg, comes into an estate valued at over $300,000. Here is a chance for some fortune-hunting young fellow who wants to get married. He had better hasten with a proposal, however, for Miss Cook will sail for Ireland in a few weeks, and then some English dude will be apt to catch the prize.

THE Rev. M. J. Savage, the great Unitarian minister, has reached this point in practical theology: "If I knew certainly that there was an existence after death, and I knew as certainly that my fitness for it depended upon how I lived my life here, how I bore my burden, and faced my difficulties, and fought down the evils within, I might cherish it in my heart as a source of great consolation; but I should not rush into the presence until I was called."

IT is estimated that two hundred thousand girl babies are put to death in China every year. They are the offspring of the lower classes, and are killed because they are a burden and are considered worthless. Near many of the small towns and villages are small stone towers erected solely for the purpose of providing elevated places from which the infants may be hurled down and killed. The towers are hollow, and quicklime deposited at the bottom soon consumes the little bodies. Sometimes the babies are buried alive, and often left lying on the ground, where exposure soon kills them. Even in a land where such cruel practices flourish, the instinctive mother love does not become extinct. A Chinaman, being asked about the destruction of his recently-born girl, said: "The wife cry and cry, but kill allee same." Foreigners have established asylums for these discarded girls in all the large cities, and through them save tens of thousands of lives every year. In the asylums the girls' feet are bandaged according to immemorial Chinese custom, not because the foreign managers believe in it, but because the Chinese girls which they raise would never be sought in marriage were their feet allowed to grow naturally.

THE U. V. L. TAKES ACTION.

An Organization That Wants to Hold Evening Memorial Services.

That the observance of Decoration day in this city will excel in every detail all previous attempts in such demonstrations goes without saying; but heretofore the arrangements have been confined solely to the day program. The Union Veteran Legion, composed only of ex-soldiers who experienced three years and more service, will endeavor to give an appropriate evening program at the Temple or some public hall. The program will consist of literary and musical features. It will be a love feast of patriotism in memory of the heroes who gave up their lives for the country. Among the most interesting numbers will be one rendered by a body of girls, each of whom will represent a state and will recite a verse, thus forming a happy combination fitting the occasion. The committee having the affair in charge will hold a meeting Saturday evening, pursuant to a call issued by J. V. Hiler, chairman.

A Wonder Worker.

Mr. Frank Huffman, a young man of Burlington, Ohio, states that he had been under the care of two prominent physicians, and used their treatment until he was not able to get around. They pronounced his case to be Consumption and incurable. He was persuaded to try Dr. King's New Discovery for Consumption, Coughs and Colds and at that time was not able to walk across the street without resting. He found, before he had used half of a dollar bottle, that he was much better; he continued to use it and is to day enjoying good health. If you have any Throat, Lung or Chest Trouble try it. We guarantee satisfaction. Trial bottle free at Dreier & Bro.'s drug store.

MUNICIPAL ELECTIONS.

How the Battle Went in Many of the Indiana Towns.

Municipal elections were held in many of the cities throughout the state on Tuesday, with the following results:

Bluffton—The entire democratic ticket elected.

Anderson—Republicans will have majority in council.

Attica—Democrats elect marshal first time in twenty five years; city council a tie, with a republican mayor.

Hammond—Entire democratic ticket elected, a gain of one councilman.

Jeffersonville—Owing to factional differences, republicans carry city first time in eight years, electing mayor, marshal, clerk and councilmen in First and Fourth wards. Mayor Warder, defeated candidate, has served as mayor four consecutive terms.

South Bend—Democrats elect water works trustee and six out of the eight councilmen.

Shelbyville—The issue was law and order vs. the saloon, and the liberal democracy elected the entire city ticket, save the candidate for treasurer and all the councilmen.

Goshen—Republicans gain one councilman.

Hanover—Republican ticket successful. Republicans and democrats divided honors in West Madison and voted that the hog must go.

Huntington—Republicans elect two councilmen, and have majority in council, first time in several years.

Richmond—Republicans elect Perry J. Freeman mayor over Thistlewaite, democrat, present incumbent, by 341 majority, and all other candidates save councilman in First ward.

Plymouth—Republicans elect one councilman; balance of ticket democratic.

Peru—The republicans re-elect the mayor and gain two councilmen.

Marion—Republicans elect mayor, clerk, treasurer and water-works trustee by majorities ranging from 265 to 281, They also elect four councilmen. The democratic marshal was elected by 140 majority.

Connersville—Two republican and one democratic councilmen were elected.

Columbia City—Democrats elect two councilmen and republicans one.

Corydon—Labor and independent ticket successful; no politics involved.

Decatur—Entirely democratic, with water-works bonds approved.

Greensburg—Democrats gain mayor, and the new council a tie; balance of ticket republican.

Greenwood—Tax-payers routed the "ring," and the entire citizens' ticket was elected.

Muncie—Democrats elect mayor, marshal, treasurer and two out of eight councilmen, due to a republican factional fight and a bolt of several hundred republicans against the "ring," and the same including a people's ticket, in which the democratic candidate for mayor was indorsed.

Milford—The people fused with the prohibitionists against the "ring" and elected every candidate on the prohibition ticket. The success is attributed to the persistent work of the Milford Mail.

Vincennes—Citizens' ticket, the outgrowth of a revolt against the saloon, was elected, save the candidate for clerk. Capt. O. C. Miller was elected mayor, vice Francis Murphy, the present incumbent, who is a saloonkeeper. The independent movement also elected four out of six councilmen.

Terre Haute—Democrats elect mayor and four out of six councilmen. Republicans elect treasurer, clerk and marshal. The new council stands seven republicans, five democrats. The saloon-closing ordinance was the principal issue, with republicans pledged to enforce the law.

Union City—Republicans elect two councilmen and democrats one.

Kokomo—Entire republican ticket elected, including mayor, city officers and all councilmen. The present mayor is an independent democrat.

Lafayette—F. E. McGinley, democrat, making his sixth race, was elected mayor. Balance of democratic ticket elected save water-works trustees. Republicans gain two councilman, making that body a tie.

Ladoga—Democrats elect entire ticket save candidate for treasurer.

Laporte—Democrats elect entire ticket save one councilman.

Logansport—Democrats elect mayor, treasurer and four out of five councilmen, and lose clerk, marshal and water-works trustee.

A somewhat celebrated temperance lecturer in Missouri is named Drinkhard.

Thin and impure blood is made rich and healthful by taking Hood's Sarsaparilla. It cures scrofula, salt rheum, all blood disorders.

Reputation is the mean of life; some men have to live up to it, others to live it down.

Piles! Piles! Itching Piles.

SYMPTOMS—Moisture; intense itching and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate, becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. All druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia.

HIS WORTH RECOGNIZED.

Herbert G. Rowe, of This City, Appointed by the Ann Arbor Faculty.

Among the students of the University of Michigan, at Ann Arbor, who have been candidates for graduation this year was Herbert G. Rowe, a bright young man of this city. The news comes that Mr. Rowe has just been appointed assistant instructor in one of the departments in the university, a most commendatory recognition to the young man of the banner city of northern Indiana. Such an appointment is bestowed only when the faculty anticipate further development of the student thus elevated.

The numerous friends of Mr. Rowe in Fort Wayne will extend congratulations.

ANOTHER SCHOOL.

Work Commenced on the New St. John's School Building.

To-day work was commenced on the new St. John's Lutheran school in the Industrial Park addition in the southeastern portion of the city. Adjoining the school will be a handsome church building to be an annex to the main church at the corner of West Washington and Van Buren streets. The new edifice will be built this summer. The school building will be occupied the coming fall. The increasing congregation of St. John's makes the above construction necessary.

Don't Throw up the Sponge!

The hideous ogre, Giant Despair, often fastens his clutch upon the chronic invalid. Constantly plagued by dyspepsia, biliousness and constipation—nervous and sleepless too—what wonder is it that having tried in vain a multitude of useless remedies he is ready, figuratively speaking, to "throw up the sponge". Let the unfortunate "take heart of grace." Hostetter's Stomach Bitters can and will put a terminus to his trails. It strengthens the stomach, confers nervous vigor by promoting assimilation of food, arouses the liver when dormant, and relaxes the bowels without pain. The ability to digest and assimilate restored, the ability to sleep follows. Nothing then can stay the renewal of health but imprudence. Hostetter's Stomach Bitters, moreover transcends all others as a remedy for malarial, rheumatic, and kidney complaints. A wineglass full three times a day.

The ordinary watch crystal passes through the hands of thirty-five workmen before it is ready for use.

TAKE S.S.S. IN THE SPRING.

Nature should be assisted in the spring to throw off the heaviness of the sluggish winter circulation of the blood. Nothing does it so well, so prompt or so safely as Swift's Specific.

I have used S. S. S. for a number of years, and consider it the best tonic and blood remedy that I ever used. In fact I would not attempt to enter upon a spring or summer in this climate without it.

Peter Blum has resigned his position at the Bass shops and will take employment in a foundry at Huntington.

J. Ossenbaugh is supposed to be sick, as he is absent to-day from the Pittsburg car shops, which is something unusual for him.

Kokomo has a Teamster's union. They have gone out on a strike for an increase in wages from $2.50 to $3 00 per day.

Engineer P. T. Welsh, Firemen W. Payne and W. P. McAfee, of the Pittsburg, have reported for duty after a weeks absence.

W. Fisher, caller at the Pittsburg round house, contemplates a pleasure trip in the near future which will include Chicago.

Timekeeper Martin Gilmartin, of the Electric works, was so elated over the result of the election that he could not work yesterday.

Clerk Clem Misner, of the Pittsburg store room, is at his desk to day, after a couple days' absence, during which he was an election clerk.

Ed. Smith, a machinist in the Indiana Iron works, will shortly quit that establishment to accept a similar position in a Chicago shop.

G. Schuber, of the Bass works, who has been suffering with sore eyes for several weeks, has nearly recovered and will soon resume his old position.

Bass' car wheel moulding room is closed to-day and the men attended the funeral of Mrs. Marie Witte, wife of one of the men employed in the works.

M. R. Hardendoerf, a blacksmith, and Ed Mennewisch, a helper for John Slater, are reported sick. Both men work for the Pennsylvania company.

Henry Meyers, a moulder employed at the Bass foundry, is expecting the arrival in this city to-day of his mother and two sisters, who come from Germany.

T. Walsh, of the Pittsburg round house, has returned to work after a few days lay off, during which he attended the funeral of his nephew, Thomas Walsh.

Before adjourning the Ohio senate passed the bill prohibiting railroad companies from employing engineers who are given to drinking intoxicating liquors.

One of the class "O" engines on the Pennsylvania line, a day or two ago, hauled a live stock train of eighteen cars 120 miles in four hours and ten minutes.

Henry Webber, John Leffers, Wm. Helker, H. H. Brown, Otto Nichter, Frank Druhot and Wm. Cramer, all of the Bass foundry, are absent from the shops to-day. Some are sick and others are taking a vacation.

Notices are posted up in the various departments of the Pittsburg shops that an election of officers for the Pennsylvania Relief association will be held May 28. Each department is entitled to a member on the advisory committee.

The Paul Bros.' Pulley works, when in full operation, which will be a week or two yet, will give employment to seventy-five men. This institution will be a great aid to laborers who are now complaining of having very little to do.

The steam pump which it is proposed to place in Koehler's brick yard will interest all persons of a mechanical turn of mind. It is something new in the pump line. A well is now being dug from which to secure a supply of water.

Thomas McGill, general western agent of the Georgia Central road, who was injured in the wreck on the St. Louis division of the Big Four on Sunday, April 25, was much worse yesterday, and it is feared that he will not recover. Congestion of the brain is threatened.

The Pennsylvania company has a steam shovel and several construction trains at work on the road between Logansport and Chicago, reballasting. Six thousand car loads of gravel will be distributed on that division, and similar work will be begun between Logansport and Richmond.

A very pretty marriage ceremony was that of Albert Barbier to Miss Alice Cuttler, which occurred this afternoon at the home of the bride, near the east Pittsburg car shops. The young people have a large list of acquaintances with whom they are very popular. Mr. Barbier is a painter employed in the east shops. THE SENTINEL extends its congratulations along with those of numerous friends.

Henry Daseler suffers with a painful wound on his left hand. He is a machinist in the Pittsburg shops, and while at work last Monday was struck on the hand by a sharp piece of iron, which cut a deep gash. He will be unable to work for some time.

Wm. Korte and Miss Minnie Brokmeyer were married this afternoon. The groom is the well known moulder at the Bass foundry. Some of his fellow workmen attended the wedding and were granted a leave of absence from the shop to-day for that purpose.

On account of the serious illness of his bright little boy, A. D. Clark, of the Pittsburg machine shop, is absent from his lathe to day. The child is not expected to live. Mr. Clark has the sympathy of his fellow shopmen and a large list of friends outside. He resides at 121 East Main street.

The veteran moulder, George M. Fordney, left this morning for Detroit. From the latter city he goes to Madison, Ill., to assume the foremanship of a foundry, a position which has attached to it a handsome salary. Madison is a manufacturing town near St. Louis on the Illinois side of the river.

The fact that the National Express company is to operate over the Nickel Plate road, is good evidence that faster passenger trains are to be placed on that line, as the National is to operate in connection with the Northern Pacific from Chicago, and slow trains are not run when express companies have anything to say.

The Richmond Telegram says: "Ernest Gilchrist came down from Fort Wayne yesterday to take the "night hawk" trick for Will Parry, in the Grand Rapids and Indiana office, while the latter is working for Charley Hudon, the day operator, who has important business on hand. You will know all about it to-morrow. Miss Ella Warren, of West Richmond, knows all about it now. She helped make the contract."

George E. Gunn, grand master of the Brotherhood of Railway Switchmen is arranging for a tour of the country in the interest of the order. The organization is weak, but is rapidly increasing in membership and strength. One of the difficulties in organizing the men in this service is that they are of so many different nationalities. In the New England states the section men are largely Irish; in New York and Pennsylvania, Poles, Hungarians and Italians; in Ohio, Indiana and Illinois the Irish largely predominate; in Missouri, Kansas and Texas there is a German element in this branch of service; in Iowa Swiss are the most numerous; on the Pacific coast the Irish are the most numerous, the Chinese having been about rooted out; in the southern states colored men are superceding all other classes. From this it will be seen that it is no easy matter for the grand organizer of the sectionmen to build up a harmonious and healthy association, no matter how good the aims of the organization.

Passengers aboard Pittsburg train No. 8 last evening witnessed a very touching scene in the death of one of their number. W. J. Anderson, of Beaver Falls, Pa., left his home about six weeks ago for Denver, Col., in search of health. He was in the last stages of consumption, and the mountain air, instead of improving, had a deleterious effect upon his lungs. He started home, hoping to reach Beaver Falls before death should overtake him, but too late, and he died at 6 o'clock last evening, just before the train reached Columbia City. Mr. Anderson was a file cutter by trade. He was forty-five years old and leaves a family of eight children, all daughters, one of whom accompanied her father on his journey and was at his side when he died. The scene on the train was a very painful one. Women and men were deeply affected and many eyes shed tears out of sympathy for the poor, lonely girl whose sad bereavement they witnessed. Undertaker Peltier met the corpse at the depot, and taking it to his morgue prepared it for burial. The girl and the remains left on No. 4 this morning for Beaver Falls.

COFFEE, COFFEE—Green and Roasted Java, Mocha and Rio

The Coffee market is still held firmly by the speculating combination who has controlled it the last two years, and since our last circular there has been little change in prices, yet a large decline is looked for. In consequence of large receipts of Coffee at Rio and Santos. At present we have reduced the price on Rio one cent per pound.

The Tea market all grades of Teas, both Chinese and Japanese remain at former prices, but they are extremely low when the high price of Coffee is considered, and it is safe to say the high price of coffee has induced a large consumption of Tea, as the price of a pound of 20c. Tea is no more than a pound of coffee and it will go twice as far. We sell a most excellent Tea at 20c. lb, and the very best at 50c. lb. Our motto in Teas is purchasing in large quantities from first hands and sell direct to our customers, thereby saving them the profits of the Jobber, Speculator and Wholesale Dealers, which is at least 15c. D. Nestel, the nursery man, brought to this office several branches loaded with blossoms, which were in a perfect state, showing that the recent frost did not harm them. The blossoms were of several varieties, among them being the peach, pear and apple. Grapes in exposed places have been nipped by the frost and such vines will bear but little fruit the coming season. It seems almost incredible that the fruit did not suffer from the frost when it is considered that ice one-quarter of an inch formed in washtubs.

What fish stories one hears nowadays! Some of them would make Eli Perkins, the champion liar, green with envy. The latest is from H. Mennewish, Gus and Mart Hobrock, of the Pittsburg machine shop, who were out yesterday. One who has heard their story naturally wonders if there are any fish left in the river. All day the men in the shops suffered untold miseries, inflicted upon them by these lovers of the piscatorial art in the shape of wonderful and thrilling narratives of their experience along Shawnee run yesterday. According to the anglers their catch was the most remarkable of the season. Investigation reveals the fact that it was remarkable only in the absence of fish. They caught one sunfish, two water dogs and eight bites.

It will be interesting to the local wheelmen to know that Mr. W. G. Douglass, of Moor View, Newcastle, England, has made a new departure in the field of cycle inventions, having applied for a patent to construct cycle wheels without spokes. In place of the ordinary spokes he uses two disks of equal diameter, made from very thin sheet steel. Mr. Douglass says the disks will be made so thin that there will be no material increase in weight over that of the spoke wheels, and that the enormous tension which will be obtained in every part of the wheel will render it simply impossible for the wheel to become untrue or buckled. Among the other advantages claimed for the invention are that it will reduce atmospheric resistance to a minimum, and that while the rider will obtain a wheel as light as a spoke wheel he will at the same time get one having an enormous tensile strength and the rigidity of a rock. Such a bicycle will be seen in America soon.

A boy baby now gladdens the home of Mr. and Mrs. Homer T. Smith, of the Ninth ward. The arrival of the young man makes Mr. Manning Smith, the deputy assessor, a grandpa for the first time. The E. E. P. C., of which the latter gentleman is a member, will celebrate the event in an appropriate manner. Homer Smith is the well known Nickel Plate telegraph operator, and the rapidity with which he now ticks off the dots and dashes convinces the operators along the line that something unusual has occurred.

"RAGLAN'S WAY."

Theater Goers Pronounce it the Best Attraction on the Road.

"Raglan's Way," in which that eminent young actor, Edwin Arden, takes the leading role, will be the attraction at the Masonic Temple to-morrow evening. It is the best of the Union Square plays and is among the best attractions on the road. When it was here last October the audience was delighted with its production and THE SENTINEL'S criticism of the performance the next day said, "It is the best attraction that has been in the city this season." One of the best scenes in the play is a duel in the dark, which never fails to rouse the audience to a pitch of enthusiasm. It is a novel situation, and is certain to attract attention all over the country. Mr. Arden is more than satisfied with the success of "Raglan's Way," and has already arranged to present it in all the large cities next season.

THE AFTER EFFECTS.

Where the Fearful Danger of Grip Lies and How to Counteract It.

Here is something which one of the most prominent doctors in America recently said about the grip.

"Have you noticed that only those persons who were aged and feeble or debilitated died of the Grip? The grip itself is not so serious or dangerous but it is the terribly weakened condition that it leaves one in and the fearful after effects which it brings. The people who die do not have vitality enough to recover; they do not possess vigor enough to throw off the after effects. Such people, in fact all the people should have help in some sensible way to throw off the depressing, the debilitating, the almost suicidal feelings which the Grip always causes. Nothing will do this, nothing will help nature except some pure stimulant and there is nothing in the way of stimulants equal to pure whiskey."

"No medicinal stimulant ever has produced the results, ever has received the endorsements or has been so popular as Duffy's Pure Malt Whiskey. The reason is exceedingly simple. It is because it has gently, healthily and completely assisted nature, toned it up, enabled it to resist the outside influences which tended to disease and to assist toward the attractive path which leads to health. The after effects of the Grip are the worst feature of it. They must be counteracted if strength and health are to be regained. They can be overcome in but one certain way and that is by the use of the sensible, efficient and highly endorsed stimulant above mentioned. There is nothing before the public which can for a moment compare with it and the genuine should be insisted upon.
